

Cal-TREX and PBA

COOPERATIVE BURNING ON FEDERAL AND PRIVATE LANDS

TREX - PRESCRIBED FIRE TRAINING EXCHANGE

- Developed by The Nature Conservancy and the US Forest Service in 2008; Cal-TREX began in 2018
- NWCG model used to leverage training for prescribed fire to boost capacity and create more opportunities for nontraditional fire practitioners
- Implement prescribed fire to improve ecological health and resilience of forests
- Create positive messaging about prescribed fire
- Empower local partnerships to expand workforce and engage potential stakeholders

PBA – Prescribed Burn Association

- Organizations of individuals or groups using prescribed fire on private lands
- <https://calpba.org/>- website with resources and information on private lands burning in California
- Not associated with NWCG training standards, but often training is a core aspect of the goals and functions of the PBA
