## AGENDA TOPICS

8/27/20 1:00-3:00

### Continue working and begin finalizing Red Fir Strategy

#### GIS Analysis

*The GIS Sub-group will update the group. At the July meeting, the GIS sub-group agreed to gather to address the following:*

- 1) Climate exposure data – we need to reach consensus on the climate data and how we are using it.
- 2) If we are planning on using the data layers to prioritize, we need to come up with some rankings.
- 3) Work with the ENF GIS folks to finalize those products to get maps that we can share with the full group.
- 4) Consider looking at TCSI
